The A3 and the sketch sheet stay as they are, corrections visible, and are photographed. This sheet carries only what the later steps read, agreed by the group after the working sheets are full.

1 The boundary

What is inside, in one sentence, and the exclusion most likely to be wrong.

2 The layers, widest first

4 The two descriptions that conflict

Both cannot be acted on at once. Name the actor holding each.

ACTOR	WHAT THAT ACTOR TAKES THE PROBLEM TO BE

5 The three sentences from the sketch

WHAT THIS SYSTEM IS MAINLY DOING

WHERE THE TENSION IS: WHO WANTS WHAT, AGAINST WHOM

WHAT SURPRISED YOU WHEN YOU DREW IT

This sheet goes into the folder. The next step that opens it is step 3, which reads the three sentences, and step 5, which reads the boundary and comes back to it when the mapping will not explain the pattern.
